IV Vitamin Therapy

IV VITAMIN THERAPY

Jet Fuel.....R990

A quick boost of energy. A mixture of B Vitamins and Vitamin C gives your body the energy it needs to help fight fatigue and boost your immune system.

Anti Inflammatory/ Auto Immune.....R1050

A quick boost of energy. A mixture of B Vitamins and HIGH Vitamin C to give your body the energy it needs to help fight fatigue, and inflammation and boost your immune system.

RADIANT GLOW RANGE

An all time favourite beauty treatment. Improves complexion & and enhances a natural glowing skin. Improves acne and pigmentation.

Radiant Glow.....R850

Radiant Glow Ultimate.....R1000

Radiant Glow Deluxe.....R1400

Vitamin B12.....R275

Vitamin B12 is a nutrient that helps keep your body's blood and nerve cells healthy and helps make DNA, the genetic material in all of your cells.

Vitamin B Complex.....R275

B vitamins play a vital role in maintaining good health and well-being. As the building blocks of a healthy body, B vitamins have a direct impact on your energy levels, brain function, and cell metabolism.

Weight Assist.....R450

GAC is a molecule that helps the body convert fat into energy resulting in weight loss.

IV Vitamin Therapy

IV VITAMIN THERAPY

Energy Boost.....R750

This drip is perfect for a pick me up, containing vitamin B1-B6, B12 and magnesium is the perfect balance to give the body energy and revitalisation.

Rehydration.....R275

Instant Hydration.

Maintains body temperature, removes waste and toxins, lubricates joints, keeps skin healthy & soft and transports oxygen & nutrients to cells.

Biotin.....R325

Also known as Vitamin B7, this key nutrient has a lot of benefits. It is known for strengthening hair, skin and nails. It also supports collagen, fights fatigue and many more.

Biotin Add On.....R275

Glutamine.....R325

Glutamine is a building block for making proteins in the body. It's also needed to make other amino acids and glucose. Glutamine supplements might help gut function, immune function, and other processes, especially in times of stress when the body uses more glutamine.

Glutamate Add On.....R275

Trace Elements.....R250

Trace elements function primarily as catalysts in enzyme systems; some metallic ions, such as iron and copper, participate in oxidation-reduction reactions in energy metabolism. Iron, as a constituent of hemoglobin and myoglobin, also plays a vital role in the transport of oxygen.

Aesthetics

FACE TREATMENTS

Dermaplaning.....	R500
Dermaplaning exfoliates the skin using a surgical blade and removes facial hair. Includes application of a serum of your choice	
Micro Needling(Face Only).....	R1000
This is a facial treatment that involves using a microneedling device to create controlled micro-injuries on the skin. This method enhances the texture of the skin by promoting scarless healing and stimulating collagen production in the treated area.	
Micro Needling(Face and Neck).....	R1500
This is a treatment for the face and neck that involves using a microneedling device to create controlled micro-injuries on the skin. This method enhances the texture of the skin by promoting scarless healing and stimulating collagen production in the treated area.	
Micro Needling(Face, Neck, & Décolleté).....	R1700
This is a treatment for the face, neck and décollete that involves using a microneedling device to create controlled micro-injuries on the skin. This method enhances the texture of the skin by promoting scarless healing and stimulating collagen production in the treated area.	
Micro Needling & Dermaplaning.....	R1200
Brightening Peel.....	R1000

Mouth.....	R300
Neck.....	R700
Eye	
Bags.....	R400
Package Full Face.....	R2500

BTL ULTRA FEMME 360™

Improves tissues ,treats incontinence, laxity & vaginal atrophy.
Non-surgical no downtime intimate solution

The BTL Ultrafemme™ 360 improves tissues, frequent urinary infections, treats incontinence, and improves and treats conditions caused by vaginal laxity such as incontinence, loose skin and lost sexual sensation. It is an advanced non-invasive radiofrequency solution.

Each session is 8 minutes long and delivers safe energy waves to stimulate collagen production. You can start to feel and see results from just 3 to 6 sessions.

INTIMATE TREATMENTS

Per Session

Vagina.....R3500

3 sessions recommended, 1 week apart, each session is 8 minutes long

It delivers safe energy waves to stimulate collagen production.

A recommended treatment especially for menopausal onset which leads to a drop in oestrogen levels and vaginal tissues naturally thin out. Women who have given birth might experience lax vaginal muscles, and similarly with women experiencing incontinence which might make holding in urine difficult.

Pelvic rejuvenation is the process of renewing vaginal cells through the use of different treatments and technologies. Some pelvic rejuvenation solutions are surgical such as a vaginoplasty, while other treatments are non-invasive such as the BTL Ultrafemme 360. Ultrafemme 360 uses radiofrequency and ultrasound technology to gently heat up and shrink collagen fibers. This stimulates the production of new collagen in the vaginal tissue.

The tip is inserted through the introitus inside the vaginal canal, moving slowly alongside forward and backward. Temperature and local circulation increase. This mechanism plays a crucial role in the target tissue. The heat helps restore women's intimate well-being without discomfort or downtime.

BTL

Labia.....R1800
4-6 sessions recommended, 1 week apart, each session is 12-16 minutes long

Non-surgical improvement of intimate health. The ULTRA FEMME 360™ provides a safe and effective treatment with no downtime or discomfort.

Vagina and Labia.....R5000
4 sessions recommended, 1 week apart, each session is 20 minutes long

Mons Pubis Fat Reduction.....R500
4-6 sessions recommended, 1 week apart, each session is 10 minutes long session

Smoothing and reduction of prominent mons pubis, non invasive.

LYMPHASTIM

Lymph Drainage.....R400
per 30 minute session

The Lymphastim 'pressotherapy suit' performs a gentle massage that encourages the movement of lymph fluids around the body. The treatment helps stimulate the lymphatic system and help remove toxins from your body. Fully overlapping chambers make the therapy very effective due to the precise movement of lymphatic fluids.

The benefits of Lymphastim include:

- Blood and lymphatic flow acceleration, oedema reduction, tissue regeneration, muscle relaxation and pain reduction.
- Lymphastim can also treat 'heavy legs syndrome', chronic oedema, post-surgical obstruction of lymph vessels, venous insufficiency, ischemic disease, and prevents deep venous thrombosis.
- The treatment is widely used by professional athletes, more especially marathon runners, and aids in improving recovery time when injured.
- Running helps build muscular endurance in your legs. However, this causes a significant amount of stress on the body which could lead to problems such as water retention and swelling.
- Lymphastim provides relief from swelling after a run, or oedema, while promoting muscle relaxation.
- Fights against cellulite
- Regenerates and detoxicates the body
- Volume reduction and body shape remodelling
- Muscular relaxation and massage

BTL

X-WAVE BODY

6-8 X-wave sessions, once or twice a week apart, recommended

treatment for cellulite, stretch marks .stimulates blood flow and increase the efficiency of slimming/tightening treatments. It is a set of special acoustic wave pulses that induce vibrations in targeted tissue leading to tissue relaxation and stretching. As a result the firmness of elasticity of epidermis increases. The acoustic waves stimulate blood circulation and collagen production. Accelerated blood flow and vasomotor activity stimulate the destruction of fat cells.

Buttocks, Front Thigh, Back Thigh

Treatment Time: 10mins per area*

Cost per area: R550*

Arms and small areas

Treatment Time: 10mins per area*

Cost: R500 per area*

Abdomen

Treatment Time: 10mins per area*

Cost: R550 per area*

*treatment area size will be measured on consultation.

X-WAVE BODY

X-Wave for Muscle Spasms

Relief from muscle tension and spasms

R600 for a 15 minute treatment

6-8 X-wave sessions once or twice a week apart.

X-wave treatment can be followed by lymphatic drainage to enhance the results further.

Gents X-wave

Intimate Treatments (will require consultation for recommended treatment time and number of sessions)

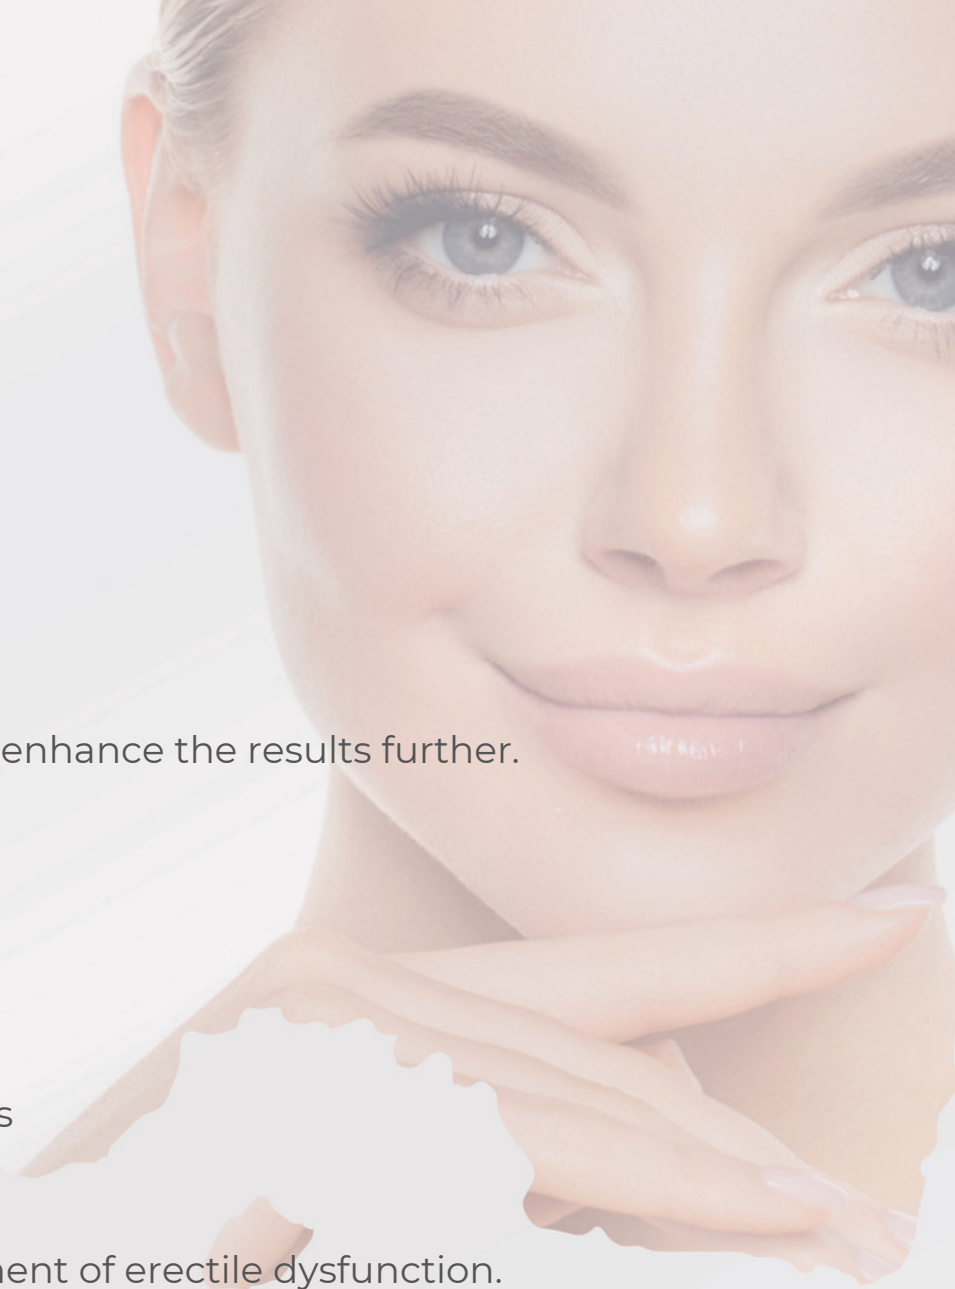

Average: 15-20 minutes per session, 1 week apart, 4-8 sessions

R3000 per session

Shock-wave therapy (x-wave) is highly effective in the treatment of erectile dysfunction.

Helps creation of new blood vessels in the area and therefore improves blood flow.

This treatment is not painful has no downtime
